

## Computer Training Center

Area : Education & Employment

Type : Care & Development

Location : North Jakarta (Plumpang), Medan , Nias, Surabaya, Jayapura

Impact : 931 students graduated as ( May 2008 ) Six month computer vocational training programs for youths at risk of lower income families.

Applicants are interviewed and background checked ensuring the qualification of entrance.

The curriculum consists of basic computer skill training as well as English Proficiency and Career Planning.

We hope to impact the children by providing a safe haven to grow and learn, new family through adoption, and to provide better tomorrow.

In five years of existence, 90% of the graduated are working at a better employment, earning a lot more than what they would make.

We hope to impact the youths by providing a skill-added training to obtain better employment and to eventually bring their family out of poverty.
